

Course Information Sheet

Cocaine: A Powerful Stimulant (1 education hour)

Course Description: This course explores cocaine, a powerfully addictive stimulant. We will examine the impact of cocaine on the brain, how the drug is abused, the effects of short/long-term usage, and the scope of use within the country. Additionally, we will examine some of the latest research being conducted.

Course Objectives:

1. Explore the effects of cocaine on the brain
2. Examine how cocaine is abused
3. Present ways in which cocaine is administered into the system
4. Evaluate research that explains cocaine's addictiveness
5. Review treatments effective for cocaine abusers
