

Course Information Sheet

Family Roles in Substance Abusing Homes (1.5 education hours)

Course Description: This audio presentation was recorded live with SubstanceEducation.com's host, Steve Smith, and panel members Omega Galliano, Frances Joslin, and Dr. Jim Cook. Common childhood roles observed in substance abusing families are defined and discussed, along with the exploration of how growing up in this environment impacts children as adults.

Course Objectives:

1. Identify how substance abuse impacts the family
2. Identify and discuss various family roles that arise out of living in a substance abusing home
3. Explore how growing up in a substance abusing family affects children as adults
4. Identify resources for those struggling with living in a substance abusing family
