

Course Information Sheet

Help for the Addicted Family (1 education hour)

Course Description: Addiction is a devastating disease that affects not just the addict, but the addict's loved ones as well. This course provides information on how to understand the addict and tips for living with dependent family members. Family members of addicts reflect on their lives and serve as a moving reminder of how addiction impacts everyone.

Course Objectives:

1. Explore social, legal, physical, emotional, and financial consequences resulting from abuse
2. Evaluate defense mechanisms families utilize to deal with the addict
3. Consider the difficult choices family members face
4. Present tips for living with an addict
