

Course Information Sheet

Intervention: The Process (0.5 education hour)

Course Description: Intervention is the process of coming between an addict and the substance, such that the addict recognizes the addiction and chooses to make a change. This course explains the process necessary to complete that goal.

Course Objectives:

1. Define intervention
2. Examine the process of intervention
3. Explore the variety of forms that intervention may take
4. Consider tips to use when performing intervention
